Three Steps to Your Dynamic Light Box

Select Your Custom Design

Choose from our template library or upload your own graphics to create your perfect display

Quick Assembly

Snap together the lightweight aluminium frame with no tools required

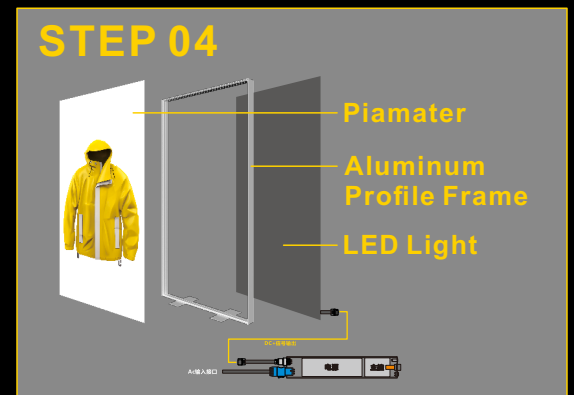

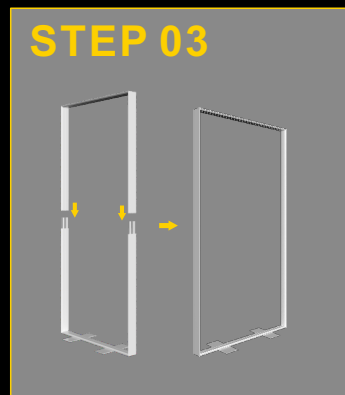

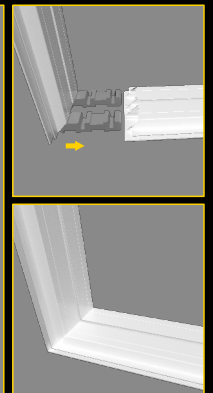

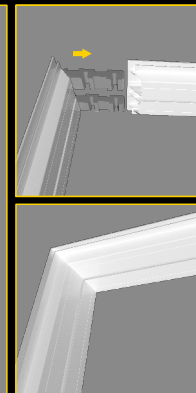

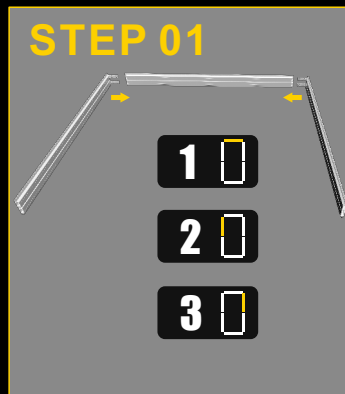

Illuminate Your Space

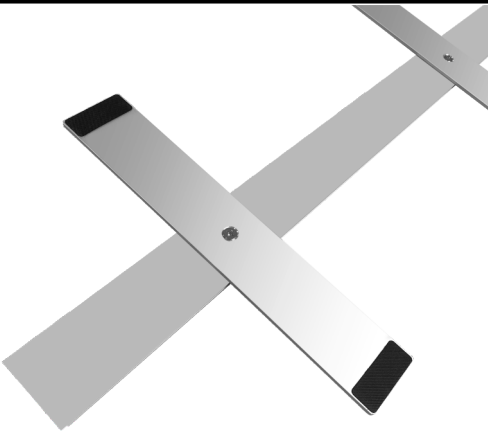

Switch on and watch your design come to life with stunning animated effects

Our intuitive design makes setup remarkably simple for anyone, regardless of technical experience.

Light Box Assembly

Assembling in just 15 minutes.

Right-angle installation

—
Use right-angle connectors to assemble the frame into a square shape.

Installation method of the light source

—
Fix the canvas to the frame of the light box.

light box Bottom sprag

—
Loosen the screw, rotate the foot by 90 degrees, and then tighten the screw.

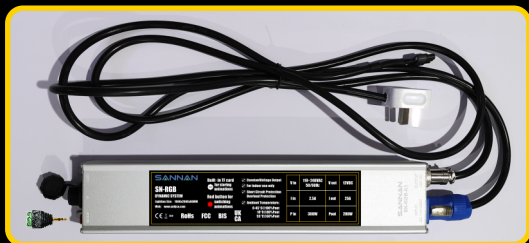

Installation of the intermediate bearing

Insert the straight rod without using screws for fixation, and then assemble it onto the long side.

Easy Transport Showcase Your Brand Anywhere

Durable Transport Case
Premium dual-wheel carrying case protects your investment during transport and storage

Multi-Environment Design
Performs beautifully in airports, shopping centres, exhibitions and retail spaces

Modular Connectivity
Link multiple units to create impressive visual walls or booth backdrops

20% Increase in Customer Traffic

“Since installing the SEG dynamic light boxes to showcase our new products and brand spirit, we’ve seen a significant rise in foot traffic and customer engagement. The motion graphics capture people’s attention in a way that traditional static displays simply can’t match.”

- Ryan Carter, Manager of Extreme Power Sportswear

The brand used SEG light boxes to loop content featuring product technology explanations, dynamic athlete visuals, and limited-time promotions, resulting in:

- 20% increase in monthly customer visits
- 35% rise in social media check-ins and shares
- 12% growth in average transaction value

Small Box, Big Difference

15-Minute Setup

From box to brilliant display in just 15 minutes illuminate your brand with remarkable ease

Dynamic Visuals

Capture and hold attention with eye-catching movement that static displays simply cannot match

Become the Focal Point

Transform ordinary spaces into extraordinary brand experiences that customers remember

Small Box, Big Difference

Your New Marketing Weapon

Traditional static light boxes simply cannot compare to the attention-grabbing power of dynamic displays. Our SEG technology creates:

- 400% longer viewing time from passersby
- 35% higher brand recall in post-exposure surveys
- 3/6M ROI typically achieved within 3-6 months

By bringing your brand story to life through movement, you create stronger emotional connections and memorable impressions.
