Full-color video effect, permanently
preserving the beautiful moments

01

Traditional Panel Lights: The Monotony Problem

Why settle for ordinary?

Conventional panel lights offer single light sources without variation or visual interest

Fixed dimensions make it difficult to meet diverse spatial requirements

Visually monotonous effects fail to capture the attention of modern consumers

It's time for a lighting revolution.

Multiple Size Options Adaptable to Any Space

Small Spaces

Perfect for offices,
meeting rooms and
residential applications

Medium Spaces

Ideal for retail,
restaurants and boutique
environments

Large Spaces

Stunning in commercial
atriums, exhibition
halls and hospitality venues

One Light, Multiple Functions: Illumination Meets Display

The SKY Dynamic Panel Light Box transcends ordinary lighting by combining:

Premium Illumination

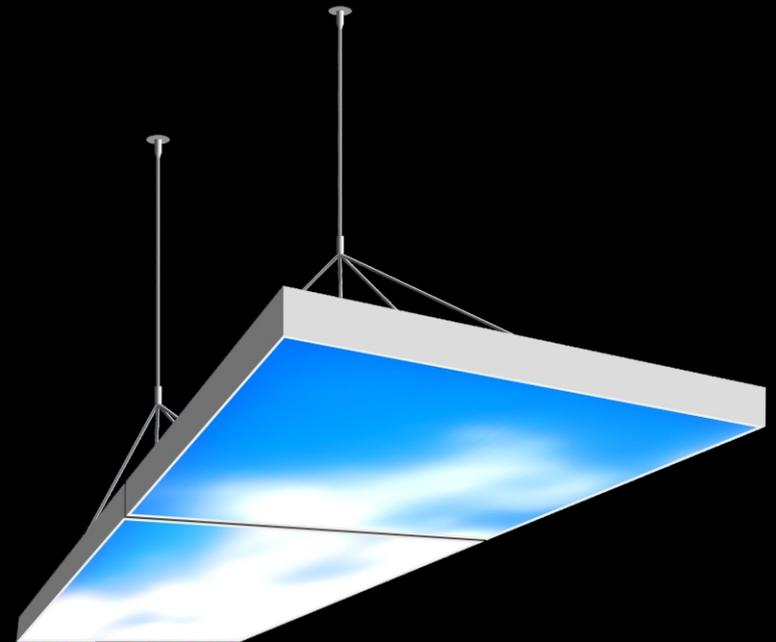

Built-in high-brightness LEDs ensure uniform, soft lighting throughout any space

Dynamic Content Display

Advanced technology supports multiple animations, colour transitions and pattern changes

Brand Enhancement

Transform a single panel into a rich visual content platform, amplifying brand communication

Visual Impact: Bringing Spaces to Life

Capture Attention

Dynamic light variations attract gazes and increase customer dwell time by up to 40%

Versatile Applications

Perfect for shopping centres, showrooms, offices, dining establishments and more

Brand Integration

Incorporate brand elements to create distinctive visual identity systems

05

Transform static environments into memorable, dynamic experiences that leave lasting impressions.

Energy-Efficient and Intelligent Control

50,000h

LED Lifespan

Industry-leading durability with minimal maintenance requirements

40%

Energy Savings

Energy Savings Compared to traditional lighting solutions

100%

Remote Control

Remote control, RS485 control

Environmentally conscious materials align with modern sustainability principles.

Success Stories: Multi-Industry Applications

Luxury Retail

Shenzhen jewellery boutique experienced a 30% sales increase after installing SKY dynamic panels that enhanced product presentation

Commercial Complex

Mall entrance featuring dynamic panel light boxes created a modern technological atmosphere, doubling foot traffic

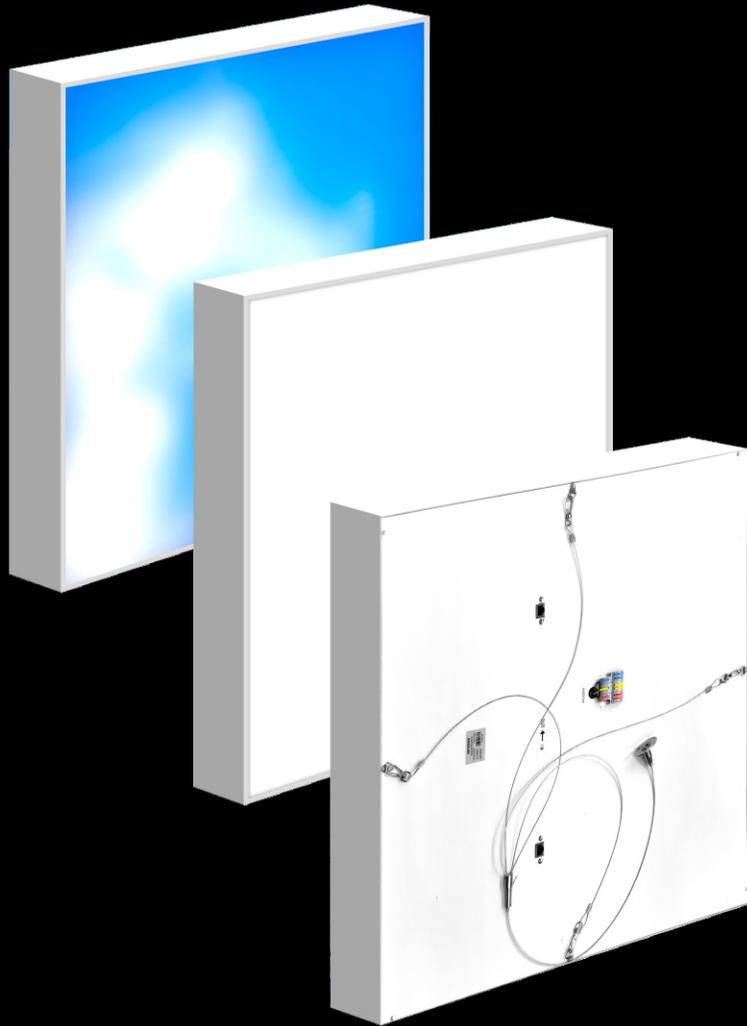

Corporate Environment

Custom-sized installations in office spaces significantly improved employee comfort and productivity levels

07

Join the growing list of businesses transforming their environments with SKY Dynamic Panel Light Boxes.

Technical Advantages of SKY Dynamic Panel Light Boxes

Advanced LED Technology

State-of-the-art LED modules and control systems support a wide range of dynamic animation effects

Superior Light Diffusion

High-transparency acrylic panels ensure uniform lighting without glare or hotspots

Modular Engineering

User-friendly design enables simple maintenance and straightforward upgrades

Our commitment to innovation ensures you're always at the forefront of lighting technology
